EXPERIENCE

Whelan Security, Saint Louis, MO — *Security Guard*

March 2012 - Present

I am currently working at a residential building in the Central West End. I manage the front desk and observe and report activities on the property. I also perform the duties of a concierge, including assisting and communicating with guests and tenants, and resolving issues on site.

U.S. Army, F.t Hood, TX — *Fire Control System Technician*

March 1996 - Jan 2000

I have four years of service with an honorable discharge. I have extensive experience in performing and supervising maintenance of laser, infrared laser devices, and electronic ballistic computers. I also repaired circuit boards and removed defective electrical components. I held a secret security clearance and have worked on multi-million dollar equipment.

EDUCATION

LaunchCode, Saint Louis, MO

 LC 101- Summer 2018 Cohort

Through three units of study, I learned Python, Web Development, and C#/.NET Core. I created a variety of projects while becoming familiar with multiple computer languages. I learned to design for web applications like Model-View-Controller. Working with SQL and frameworks like Entity, I created databases . In addition, I learned version control systems such as Git.
